Footsteps to Life. Footsteps to Truth.

Mission Trips To Haiti

## Life Changing For Everyone

Our mission is to make a difference in the world by helping people in practical ways to have a better life, both spiritually and physically. This mission is carried out by helping people have "Footsteps to Life" by building much needed bridges and "Footsteps to Truth" by sharing the more needed Word of God abroad and at home.

We currently work in Haiti, the poorest country in the Western Hemisphere, which is just a 2 hour flight away from our most blessed nation.

Children in Logou are amazed as they watch and learn how to use power tools to help build their bridge.

## Generational Impact

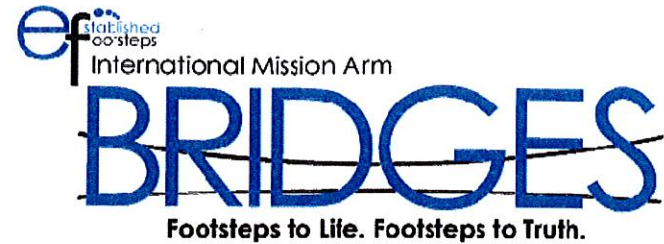

The leaders at Tierra Muskadi, Haiti drive a stake in the ground where their bridge will be built. No longer will they be cut off from schools, churches, hospitals or the market due to raging flooding rivers during the 4 months of rainy seasons.

This is an exciting time as they realize that life as they know it will be changed forever. God has seen their plight and is sending help through **BRIDGES**. Our suspension bridges are built to last between 30 and 40 years , with lasting generational impact.

For each bridge built, our volunteer mission team will work side by side with the community men, women and children. We'll show them how to build this physical bridge and also how to access the bridge of Jesus Christ as their personal Lord and Savior.

Our planning, assistance, work and resources today give a better life to thousands of people tomorrow.
